

Index to Volume 12*

A

- Abbas, A. H., 445-456
Acorus calamus, 4-5
Activated charcoal, phenir-
amine toxicity, reduction
of using, 523-530
tannic acid, interference by
with effectiveness of in
"universal antidote," 515-
522
Adrenal tumors, in rat strains,
spontaneous, 251-252
Aerosols, spray paints with
methylene chloride, effect
on carboxyhemoglobin of
exposure to, 551-561
Aflatoxin, in corn, suspected,
495-496
Alcoholism, delirium tremens,
emergency treatment of,
97-99
Ambre, J., 37-40
American Association of Poison
Control Centers, member-
ship list, 1977, 107-136
special issue on, 269-380
American Board of Medical
Toxicology, list of certified
diplomates of, 413-416
Anemia, hemolytic, following
brown spider bite, 531-534
Animal data, retrospective
analysis of control animal
data, 249-263
Animal studies, barbiturate
physical dependence in
mice, effect of neuroleptics
and diazepam on withdrawal
syndrome, 427-434
conium alkaloids and analogs,
teratogenic effects in cattle,
49-64
fixatives and fixation methods
in selected tissues of the
laboratory rat, 583-600
species selection and animal
models for toxicologic
studies, 239-247
toxicity of organic mercury in
sheep and hens, 445-456
Antidotes, activated charcoal in
"universal antidote," inter-
ference by tannic acid with,
515-522
Antiepileptic drugs, determina-
tion of in plasma, correla-
tion of the "EMIT" with a
gas-liquid chromatographic
method, 483-494
Antihistamines, pheniramine
toxicity, reduction of
using activated charcoal,
523-530

*This index contains the names of all contributors to Volume 12, 1978.

Apomorphine, clinical trial of
stable solution, 65-68
Apple of Peru, 16-20
Apricot vine, 11-12
Aquifoliaceae, 10-11
Araceae, 4-5
Argyrea nervosa, 14-16
Ariocarpus retusus, 13
Armstrong, G., 303-307
Association of Official Analytic
Chemists (AOAC), role of
in collaborative toxicology
testing, 195-204
Asthma weed, 21-23
Atropa belladonna, 16-20

B

Baby wood rose, 14-16
Backer, R. C., 69-75
Balls, L. D., 49-64
Baptitoxine, 9
Barbiturate addiction, effects of
neuroleptics and diazepam
on withdrawal symptoms in,
427-434
Belknap, J. K., 427-434
Belladonna, 16-20
Bichy nuts, 11
Black henbane, 16-20
Bladder pod, 21-23
Blood studies, antiepileptic drugs
in plasma, correlation of the
"EMIT" system with a gas-
liquid chromatographic
method, 483-494
organophosphate pesticides,
detection of in human blood
by gas chromatography,
457-462
Boehm, J. J., 523-530
Brain tumors, in rat strains,
spontaneous, 253-255
Brigham tea, 2-4
Broom, 8-9
Brown, J. K., 1-31
Brown, T. C. K., 523-530
Brown spider bite, hemolytic
anemia following, 531-534
Bruch, C. W., 149-166
Bryson, P., 367-375
Burditt, G. M., 179-187
Burns, R. S., 463-481

C

Cactaceae, 13-14
Calamus root, 4-5
California poppy, 8
Campanulaceae, 21-23
Carboxyhemoglobin, aerosol spray
paints with methylene chlo-
ride, effect of exposure to on,
551-561
Carcinogenesis, in rat strains,
spontaneous, 250-260
Carcinogens, aflatoxin suspected
in corn, 495-496
in industry, 499-500
Cattle, conium alkaloids and
analogs, teratogenic effects
in, 49-64
Chanin, A., 103-104
Charcoal, pheniramine toxicity,
reduction of using, 523-530
tannic acid, interference by
with effectiveness of in "uni-
versal antidote," 515-522
Chenoweth, M. B., 551-561
Child-resistant containers, test-
ing of, 357-365
Children, poisoning, clinical trial
of stable solution of apo-
morphine, 65-68
Chloral hydrate dependency, case
report, 377-380
Chlorpromazine, use of in barbit-
urate withdrawal syndrome in
mice, 427-434
Chromatography, antiepileptic
drugs in plasma, correlation
of the "EMIT" with a gas-
liquid chromatographic meth-
od, 483-494

[Chromatography]

organophosphate pesticides in human blood, detection and assay by gas chromatography, 457-462

Chu, J.-Y., 531-534

Cocaine, sodium hypochlorite, as screening reagent for identification of, 543-550

Codeine, DEA bans production of poppy as codeine source, 497-498, 505-506

Cod-liver oil, mercury and selenium in, 579-581

Coffee, as interference in the Duquenois test, 535-541

Cola nitida, 11

Collaborative studies, role of the AOAC in collaborative toxicology testing, 195-204

Colorines, 9-10

Compositae, 23-25

Conium alkaloids, teratogenic effects of in cattle, 49-64

Conium maculatum, teratogenic effects in cattle, 49-64

Containers, child-proof, testing of, 357-365

Control animal data, retrospective analysis of, 249-263

Convolvulaceae, 14-16

Cooney, D. O., 515-522

Cooper, G. L., 551-561

Coral beans, 9-10

Corn, aflatoxin in, suspected, 495-496

Corynanthe yohimbe, 20-21

Cosmetics, tentative first priority list of cosmetic ingredients for review by the expert panel, 381-412

Crooked calf disease, 49-64

Crotty, J., 303-307

Cytisine, 9

Cytisus laburnum, 9

Cytisus scoparius, 8-9

Cytiton, 9

D

Dally, S., 457-462

Daly, J. S., 515-522

Damiana, 12-13

Darby, T. D., 229-238

Datura stramonium, 16-20

Davis, F. A., 505-506

DDT, court judgement involving, 267-268

and natural halogenated compounds, 265

Deadly nightshade, 16-20

De Castro, F. J., 65-68

Decision making, dialogue in, 149-166

Delirium tremens, 97-99

Detoxification, hematologic abnormalities and pain during acute opiate abstinence syndrome, 563-578

Diazepam, use of in barbiturate withdrawal syndrome in mice, 427-434

Diazinon poisoning, 5 cases of intentional ingestion of 25% diazinon, 435-444

Documentation, legal implications of, 179-187

in research, 167-177

Dropwort, poisoning by, case report, 417-426

Drug abuse, opiate withdrawal abstinence syndrome, hematologic abnormalities and pain during, 563-578

Drug (illicit) analysis, sodium hypochlorite, as screening reagent for identification of cocaine, 543-550

Duquesnois test, coffee as interference in, 535-541

Dwale, 16-20

E

Ellis, J., 37-40

Emergency toxicology, delirium tremens, treatment of, 97-99

Intermountain Regional Poison Control Center, 277-289

minimizing legal liability of poison control centers, 319-334

National Clearinghouse for Poison Control Centers, 303-307

national organizations and agencies in poison control programs, 297-302

Pittsburgh Poison Control Center, 271-276

poison control centers, emergency medical services by, 309-327

poison control centers, history of in the United States, 291-296

toxicology information resources for poison control centers, 335-356

Emetic herb, 21-23

Emetics, apomorphine, clinical trial of stable solution, 65-68

EMIT, correlation of with a gas-liquid chromatographic method for determination of antiepileptic drugs in plasma, 483-494

Ephedraceae, 2-4

Ephedra species, 2-4

Epilepsy, determination of antiepileptic drugs in, plasma correlation of the "EMIT" with a gas-liquid chromatographic method, 483-494

Eschscholtzia californica, 8

European mandrake, 16-20

Experimental design, pharmacologic considerations in, 229-238

species selection and animal models, 239-247

F

Fairclough, Jr., G. F., 483-494

False peyote, 13

Fancher, O. E., 239-247

Fixatives, for tissues of laboratory rat, 583-600

Fluorocarbons 11 and 12, gas chromatography-mass spectrometry of in biologic specimens, 69-75

Food & Drug Administration (FDA), some views on dialogue in scientific decision making, 149-166

Ford, P., 367-375

Fournier, E., 457-462

Fourth Annual Industrial Toxicological Symposium (abstracts), 601-623

French lactucarium, 23-25

G

Gas chromatography, of fluorocarbons 11 and 12 in biologic specimens, 69-75

organophosphate pesticides in human blood, detection and assay of by, 457-462

Gas-liquid chromatography, for determination of antiepileptic drug in plasma, correlation of with the "EMIT," 493-494

German lactucarium, 23-25

Gnetaceae, 2-4

Gola, 11

Golden chain, 9

Gooroo nuts, 11

Gordon, D., 563-578

Gotu cola, 11

Grenadille, 11-12

Guess, W. L., 77-95, 143-144, 145-147

Gura nuts, 11

Guro, 11

H

- Haley, T. J., 33-35, 41-48, 249-263, 435-444
 Halogenated compounds, natural, 265
 Haloperidol, use of in barbiturate withdrawal syndrome in mice, 427-434
 Hamill, R. D., 213-217
 Hawaiian baby wood rose, 14-16
 Hays, H. W., 189-194
 Hemlock water dropwort poisoning, a review, 417-426
 Hemoglobin, carboxyhemoglobin, effect of exposure to aerosol spray paints with methylene chloride on, 551-561
 Hemolytic anemia, following brown spider bite, 531-534
 Henbane, 16-20
 Hens, toxicity of organic mercury in, 445-456
 Herbal folklore, legal highs, 1-31
 Hilmy, M. I., 445-456
Hyoscyamus niger, 16-20
 Hypertension, during recovery from phencyclidine intoxication, 37-40

I

- Ilex paraguarensis*, 10-11
 Indian tobacco, 21-23
 Industrial Toxicology Symposium, First Annual (1976), 143-264
 Intermountain Regional Poison Control Center, 277-289
 Intestinal tract tumors, in rat strains, spontaneous, 256
Ipomea violacea, 14-16

J

- Jaeger, R. W., 65-68
 Jameston weed, 16-20
 Jimson weed, 16-20

- Johnson, M. T., 583-600
 Johnson, W. D., 583-600

K

- Kava-kava, 5-6
 Keeler, R. F., 49-64
 Kidney tumors, in rat strains, spontaneous, 255
 Klemmer, H. W., 33-35, 435-444
 Kola, 11
 Kola nuts, 11
 Kutt, H., 483-494

L

- Laboratory practices, a legal perspective, 207-212
 quality control, 213-217
 standard, 189-194
 Laburnine, 9
 Laburnum, 9
Lactuca sativa, 23-25
Lactuca virosa, 23-25
 Lang, C. M., 583-600
 Lau-Cam, C. A., 535-541
 Lauritsen, L., 65-68
 Legal "highs," 1-31
 Legal liability, minimizing legal liability of poison control centers, 319-334
Leguminosae, 8-10
 Lerner, S. E., 463-481
 Lethal chemicals, mishandling of by U.S. Army, 496
 Lettuce opium, 23-25
 Leukemia, in rat strains, spontaneous, 258-260
 Libraries, interlibrary loan policy of National Library of Medicine, revised May 1977, 500-503
Lobelia inflata, 21-23
 Logistics, mishandling of lethal chemicals, 496
 Lorenz, C., 65-68
Loxosceles reclusa, hemolytic anemia following bite of, 531-534

M

- Mace, 6-7
 Ma-huang, 2-4
 Malone, M. H., 1-31
 Malpractice, minimizing legal liability of poison control centers, 319-334
 Mammary tumors, in rat strains, spontaneous, 250-251
Mandragora officinarum, 16-20
 Mandrake, 16-20
 Manoguerra, A. S., 101
 Mascoli, C. C., 167-177, 205-206
 Mass spectrometry, of fluorocarbons 11 and 12 in biologic specimens, 69-75
 Maté, 10-11
 May-pop, 11-12
 McMahon, B., 37-40
 Medical plastics, safety evaluation of, 77-95
 Mercury, in cod-liver oil, 579-581
 Mercury, organic, toxicity of in sheep and hens, 445-456
 Mescal beans, 9-10
 Methylene chloride, carboxyhemoglobin, effect on of exposure to aerosol spray paints with, 551-561
 Methysticum, 5-6
 Mexican damiana, 12-13
 Mexican tea, 2-4
 Mevinphos, dermal poisoning from, 33-35
 Micik, S., 309-317
 Mitchell, M. I., 417-426
 Moriarty, R. W., 271-276
 Mormon tea, 2-4
 Morning glory, 14-16
 Mouse studies, barbiturate physical dependence in, effect of neuroleptics and diazepam on withdrawal syndrome, 427-434
Myristicaceae, 6-7

Myristica fragrans, 6-7

N

- Nandedkar, A. K. N., 483-494
 National Clearinghouse for Poison Control Centers, 303-307
 National Library of Medicine, interlibrary loan policy, revised May 1977, 500-503
 Nutmeg, 6-7

O

- O'Connor, D. M., 531-534
Oenanthe crocata, poisoning by, case report, 417-426
 Okun, R., 377-380
 Old woman's broom, 12-13
 Opiate abstinence syndrome, hematologic abnormalities and pain during, 563-578
 Oppenheim, R. C., 523-530
 Organomercury compounds, toxicity of in sheep and hens, 445-456
 Organophosphate pesticides, detection and assay of in human blood by gas chromatography, 457-462
 Ovarian tumors, in rat strains, spontaneous, 258
 Ozone, book review, 509-510

P

- Pain, during acute opiate abstinence syndrome, 563-578
 Pancreatic tumors, in rat strains, spontaneous, 253
Papaveraceae, 8
Papaver bracteatum, DEA bans production of poppy as codeine source, 497-498, 505-506
 Paraguay tea, 10-11
 Parathion, dermal poisoning from, 33-35

- Passifloraceae, 11-12
 Passiflora incarnata, 11-12
 Passion flower, 11-12
 PCP, See Phencyclidine
 Pentachlorophenol (PCP) intoxication, pharmacokinetic study and effect of forced diuresis, 41-48
 Pesticide poisoning, mevinphos and parathion, dermal poisoning from, 33-35
 Pesticides, organophosphate, detection and assay of in human blood by gas chromatography, 457-462
 Peters, A., 65-68
 Phencyclidine, causes of phencyclidine-related deaths, 463-481
 Phencyclidine intoxication, hypertension during recovery from, 37-40
 Pheniramine, toxicity of reduction of using activated charcoal, 523-530
 Photochemical oxidants, book review, 509-510
 Piperaceae, 5-6
 Piper methysticum, 5-6
 Pisano, R. V., 69-75
 Pittsburgh Poison Control Center, 271-276
 Pituitary tumors, in rat strains, spontaneous, 253
 Plastics, safety evaluation of medical plastics, 77-95
 Poison control centers, emergency medical services by, 309-317
 history of in the United States, 291-296
 Intermountain Regional Poison Control Center, 277-289
 legal liability of, minimizing, 319-334
 national clearinghouse for, 303-307
 [Poison control centers]
 national organizations and agencies in poison control programs, 297-302
 in Pittsburgh, 271-276
 regionalization of, a rational role model, 367-375
 special issue on, 269-380
 toxicology information resources for, 335-356
 Poison Control Centers, American Association of, membership list, 1977, 107-136
 Poisoning, childhood, testing of child-proof containers, 357-365
 "Poison tobacco," 16-20
 Pollutants, ozone and other photochemical oxidants, book review, 509-510
 Polymers, safety evaluation of medical plastics, 77-95
 Polyvinyl chloride polymers, safety evaluation of, 77-95
 Poppy, DEA bans production of poppy as codeine source, 497-498, 505-506

 Q
 Quality control, in the laboratory, 213-217

 R
 Rahim, S. A., 445-456
 Rappolt, R. T., 97-99
 Rational role model, for regionalization of poison control centers, 367-375
 Rat root, 4-5
 Rat studies, fixatives and fixation methods in selected tissues of the laboratory rat, 583-600
 retrospective analysis of control animal data, 249-263

Record keeping, in research,
167-177
Red beans, 9-10
Reichert, E. R., 33-35, 435-444
Robertson, W. O., 291-296, 297-302
Rocky Mountain Poison Center,
367-375
Rolfe, U. T., 65-68
Routledge, P. A., 417-426
Rubiaceae, 20-21
Rumack, B. H., 367-375
Rush, C. T., 531-534

S

Saccharin, 103-104
Safety evaluation, of medical
plastics, 77-95
Samuels, R. W., 543-550
San Pedro cactus, 13-14
Sarothamni herb, 8-9
Sarthothamnus scoparius, 8-9
Sbarbaro, J., 367-375
Scherz, R. G., 291-296
Scientific decision making,
dialogue in, 149-166
Scotch broom, 8-9
Screening reagent, sodium
hypochlorite as, for identi-
fication of cocaine, 543-550
Second French, American, and
Canadian International
Congress of Clinical and
Analytical Toxicologists
(1977) (abstracts), 601-623
Selenium, in cod-liver oil, 579-
581
Sheep, toxicity of organic
mercury in, 445-456
Shibko, S. I., 195-204
Skin tumors, in rat strains,
spontaneous, 258
Sodium hypochlorite, as screen-
ing reagent for identifica-
tion of cocaine, 543-550
Solanaceae, 16-20

Sonnier, M., 457-462
Sophora secundiflora, 9-10
Sopporine, 9
Spider bites, hemolytic anemia
following brown spider bite,
531-534
Spray paints, aerosols with methy-
lene chloride, effect on car-
boxyhemoglobin of exposure to,
551-561
Standard laboratory procedures,
189-194
Sterculiaceae, 11
Stevenson, M. F., 551-561
Stone, C. B., 377-380
Stramonium, 16-20
Street drugs, sodium hypochlorite,
as screening agent for identi-
fication of cocaine, 543-550
Sweet cane, 4-5
Sweet cinnamon, 4-5
Sweet flag, 4-5
Sweet myrtle, 4-5
Sweet root, 4-5

T

Taka, R. Y., 445-456
Tannic acid, interference by with
effectiveness of activated
charcoal in "universal anti-
dote," 515-522
Temple, A. R., 269, 277-289, 335-
356, 357-365
Teratogens, conium alkaloids, in
cattle, 49-64
Testicular tumors, in rat strains,
spontaneous, 258
Testing, of child-resistant con-
tainers, 357-365
Duquesnois test, coffee as in-
terference in, 535-541
sodium hypochlorite, as screen-
ing reagent for identification
of cocaine, 543-550
tentative first priority list of
cosmetic ingredients for re-

[Testing]

- view by the expert panel, 381-412
- Thies, R. C., 207-212
- Thorn apple, 16-20
- Thyroid-parathyroid tumors, in rat strains, spontaneous, 255-256
- Tissue analysis, fixatives and fixation methods in selected tissues of the laboratory rat, 583-600
- Trichocereus pachanoi, 13-14
- Tumors, in rat strains, spontaneous, 250-260
- Turnera aphrodisiaca, 12-13
- Turneraceae, 12-13

U

- Ulexine, 9
- "Universal antidote," interference by tannic acid with effectiveness of activated charcoal in, 515-522
- Uterine tumors, in rat strains, spontaneous, 258

V

- Van de Ven, W. S. M., 579-581
- Veltri, J. C., 277-289, 335-356

- Vinyl chloride monomer, safety evaluation of, 92
- Vomit weed, 21-23

W

- Weiss, R., 319-334
- Whore-house tea, 2-4
- Wild lettuce, 23-25
- Wild passion flower, 11-12
- Wild tobacco, 21-23
- Winokur, J. L., 319-334
- Winokur, M., 367-375
- Withdrawal syndrome, from barbiturate dependence, effects of neuroleptics and diazepam on, 427-434
- delirium tremens, emergency treatment of, 79-99
- from opiates, hematologic abnormalities and pain during, 563-578
- Wood rose, 14-16

Y

- Yauger, W. L., 435-444
- Yohimbe, 20
- Yohimbine bark, 20-21
- Young, J. F., 41-48
